

■ Position property

Property Values

static

Default value. Elements render in order, as they appear in the document flow

absolute

The element is positioned relative to its first positioned (not static) ancestor element

fixed

The element is positioned relative to the browser window

relative

The element is positioned relative to its normal position, so "left:20" adds 20 pixels to the element's LEFT position

initial

Sets this property to its default value. [Read about initial](#)

inherit

Inherits this property from its parent element. [Read about inherit](#)
